

Finding Median, Mode, and Range

You can use a spreadsheet to find the median, mode, and range of a set of data.

Use the B column to type the data. In cells A12, A13, and A14 type the words *Median*, *Mode*, and *Range*.

In cell B12, type the function **=MEDIAN(B1:B10)**. In cell B13, type the function **=MODE(B1:B10)**. In cell B14, type the function **=MAX(B1:B10)-MIN(B1:B10)**.

	A	B	C
1		34	
2		62	
3		57	
4		58	
5		67	
6		58	
7		44	
8		46	
9		60	
10		55	
11			
12	Median	57.5	
13	Mode	58	
14	Range	33	
15
